

Managing Third Party Risk

Added value services to reduce risk exposure

Optimise your third party risk management programme

WHAT WE DO

Discovery & Scoping

Understand and evaluate your organisation's exposure to third party risk, taking account of factors such as number, geographic spread and business activities of third parties.

WHAT YOU GET

A third party risk management programme that is effective and proportionate to the context and risk profile of your business.

Policy & Process

Design and implement clear, comprehensive and effective policies and workflows for the management of third party risk that meet the unique circumstances of your business.

Effective and documented policies and workflows for identifying and risk ranking third parties; onboarding new and legacy entities (including due diligence); third party renewals.

Implement

Assure efficient and consistent operation of the third party risk management programme.

Streamlined, efficient TPRM operations - aligned across your organisation. Support in the selection and implementation of enabling tools and technologies.

Communicate & Train

Drive appropriate knowledge and behaviours around third party risk for employees and third parties.

Targeted training and communication campaigns delivering leadership engagement, enhanced knowledge of third party risk for employees and third parties; performance support tools.

Monitor & Evaluate

Maintain appropriate oversight of the operation of the TPRM programme; identify gaps and opportunities for improvement.

Evaluation and analysis of the operation of your third party risk management programme including third party audits; gap analysis, recommendations for improvement.
