

Whistleblowing and Case Management

An innovative, technology-driven incident reporting and management system

Use our innovative technology to reduce costs and increase take up

With our partner **Got Ethics** we provide a technically advanced, secure and cost-effective whistleblower reporting and case management solution which improves accessibility and increases take-up. Our solution:

- provides an easy and effective means for your employees and third parties to securely report ethical issues,
- supports your investigations and
- delivers valuable insights to inform your planning.

Flexible, easily accessible and fully secure reporting options – including 24/7 phone-based reporting, mobile app, website, email and direct entry

Support for anonymous reporting (where permitted) – whilst still allowing two-way communication with the submitter

Multi-lingual support – enabling reports to be submitted in any language and incorporating both manual and automated machine translation of cases

Integrated case management and reporting software – allowing simple management of investigation workflows and providing comprehensive dashboards and reporting metrics

Fully compliant with the highest security standards – verified (and independently audited) as GDPR and ISO27001 compliant with no access to your data other than by your authorised representatives

Fast implementation – easily configured to map to your specific requirements. The solution can be implemented in just a few weeks

Cost-effective licensing and low cost of implementation – when compared with traditional hotline providers

Ensuring success

Our value-added services help ensure effective start-up and ongoing usage and include:

IMPLEMENTATION – design configuration and workflow, define reports and analytics, engage stakeholders

COMMUNICATION – build a speak-up culture and encourage take-up through effective communication campaigns

DOCUMENTATION – develop fit-for-purpose and easy to understand whistleblowing policies and procedures

INVESTIGATION – design and document effective procedures and train your team to conduct thorough and fair investigations.
